

**“CTS professionals understand drawing details, before they reach the site, leaving only unexpected site conditions to deal with upon arrival. Efficient installations save time and money for everyone.”**

— Mary Meeker, Owner, MMDI Inc.

For more information about specifying CTS as a requirement in your next project, visit

**[avixa.org/cts-difference](https://www.avixa.org/cts-difference)**

In the AV industry, there is only one ANAB-accredited certification: the Audiovisual and IntegratedExperience Association's (AVIXA®) Certified Technology Specialist™ (CTS®). There are more than 13,000 — and growing — CTS holders around the world.

And, almost 3,000 CTS holders also have a specialized designation, CTS-D (AV design) or CTS-I (AV installation).

**CTS - General**

**CTS - Design**

**CTS - Installation**

All three certifications are ANAB accredited under the International Organization of Standardization (ISO) and the International Electrotechnical Commission (IEC) ISO/IEC 17024:2012 General Requirements for Bodies Operating Certification Schemes of Persons program.

For personalized guidance from your local AVIXA office about CTS, contact us at [avixa.org/contact](https://www.avixa.org/contact).

To find a CTS holder near you, use the AVIXA directory at [avixa.org/ctssearch](https://www.avixa.org/ctssearch).

# Expect An Expert

By using an open, tested and clear set of industry standards developed by subject-matter experts to evaluate audiovisual providers, CTS holders can bring reassurance of competency, experience and ethical behavior to your projects.

Plus, because the CTS certification is time limited to three years unless ongoing renewal requirements are met, you know every CTS holder is aware of the latest industry trends and best practices.

**“As a CTS-D holder myself, working with colleagues in the industry that have a CTS certification is stress free and efficient. Being able to communicate effectively to a CTS holder overall lessens my work load.”**

- Justin Rexing M.S., CTS-D, ISF-C, DMC-E-4K  
Western Kentucky University
